**ST KILDA SEA TOURS:** This volcanic archipelago with its spectacular landscapes is situated 50 miles west from Leverburgh on the Isle of Harris and is the most famous of Harris's offshore Islands, and was once home to an island community, who until 1930, survived the inhospitable conditions here for thousands of years. The cliffs of neighbouring Boreray and its stacs are the highest in the UK, and are home to one of the world's largest colonies of northern gannets. St.Kilda is one of only 40 locations in the world, and the **ONLY** one in the UK, to be awarded dual World Heritage Status for natural and cultural heritage by UNESCO.
